

# *Foundations* In Recovery, LLC

## Mission Statement

*Foundations In Recovery* is a transitional home for alcoholics and drug addicts in recovery. Our sober living home offers a bridge between addiction treatment and independence. Our goal is to assist recovering alcoholics and addicts in need of a safe, supervised environment while building a strong *Foundation In Recovery* from alcoholism and drug addiction, as well as achieving personal, career and recovery goals. We provide homes where our members can be successful and accountable for themselves and their sobriety. *Foundations In Recovery*, LLC is dedicated to creating a structured environment in which adults who need support, will learn to live free from the use of alcohol and other drugs.

Our homes are in ideal locations. There are numerous small businesses in the area providing employment opportunities. We are also on main public transportation routes. Tampa offers wonderful educational institutions for those interested in advanced degrees. Churches and hospitals are within minutes. Our locations provide our members an opportunity to continue to participate in a larger society while living in a safe, sober home that will help ensure lasting recovery and sobriety.

At *Foundations In Recovery*, we strive to be a Community within a Community.
